**DONGSHA EXPERIMENT DATA WORKSHOP,
4TH 7-SEAS PLANNING WORKSHOP, AND
TECHNICAL TRAINING FOR CHEMICAL AND PHYSICAL
MEASUREMENTS**

15-18 JUNE 2010

Chung-Li, Taiwan

2nd Announcement

The introduction of these two workshops and technical tour can be found in the first announcement and related information. We have made a slight change on workshop venue. The Dongsha Experiment Data Workshop will be held on 15 June 2010 in the Center for Space and Remote Sensing Research (CSRSR), National Central University (NCU). The 7SEAS Planning Workshop will be held on 16-17 June 2010 at the ChinaTrust Hotel in Chung-Li. An optional technical tour to visit the Dongsha Island, the supersite of Dongsha Experiment and 7SEAS campaign, will be held in 18 June 2010. However, due to the capacity of chartered aircraft, there is no warranty for all registrants to participate. The final list of participants will be determined shortly.

All international participants are expected to present the status of their research related to 7SEAS' scientific objectives, or new findings/recent developments. The drafted agenda of two workshops can be found separately. The presenters indicated in the drafted agenda are tentatively proposed. We urge you to submit the title of your presentation by 10 June 2010, particularly for those who are new comers or wish to introduce their recent researches.

Please find the update General Information about the logistic support and note that we will NOT pick up you at the airport. The instruction to reach the workshop hotel is included.

The welcome reception on 14 June will be held at 6-9 pm in the 23rd floor, ChinaTrust Hotel. Please inform us (7seas.dongsha@gmail.com) if you will attend.

In the morning of 15 June, we will arrange a bus to NCU campus for Dongsha Experiment Data Workshop. We will meet in the first floor of the hotel. The bus will depart at 8:20am on time.
